

Introduction:

The Digital Village Network (DVN) is a megacommunity bringing together various local and global stakeholders in the ICT sector under one umbrella to rapidly and successfully implement ICT initiatives in Kenya.

The Digital Village Network enables and empowers individuals, groups, and organizations in the private, public and civil sectors to develop the following clusters with other stakeholders:

- **Digital Village Enterprises:**
Taking ICT to the rural areas for economic and social development.
- **Digital Capacity Investors:**
Building a knowledge-based information economy and society.
- **Digital Business Partners:**
Boosting revenues through distribution of products and services.
- **Digital Network Sponsors:**
Implementing projects/programs to guarantee success and sustainability.

* - Membership in the above DVN is open to all individuals and organizations interested in promoting ICT-driven wealth creation opportunities for the informal economy and rural communities in Kenya.

Benefits:

ICTvillage.com is a one-stop-shop for collaboration in the ICT sector to make Kenya the ICT hub of Africa.

Through our **Business Lobby**, we fast-track ICT initiatives ensuring they are rapidly implemented, generate multiple opportunities, and equitably distributed countrywide, providing successful results.

Through our **Online Portal**, we provide real-time access to industry and product news, upcoming events, jobs opportunities, and tenders plus track projects and programs on behalf of the ICT sector in Kenya.

Through our **ICT Magazine**, we publish articles, opinions, reports, case studies, statistics, etc. to raise the perception of the ICT sector as the most dynamic and fastest growing sector driving Kenya's economy.

Through our **ICT Events**, we visit local towns and global cities to showcase ICT-related products and services that will accelerate economic and social development and growth in Kenya.

Support:

ICTvillage.com is managed and marketed by Idea Factory Limited, a Nairobi-based technology business incubator, and is designed to serve as an integration and collaboration tool for the ICT sector in Kenya.

As a membership-driven resource network, ICTvillage.com ensures that all stakeholders in the Digital Village Network benefit from various ICT-related business opportunities, initiatives and activities to guarantee sustainability.

ICTvillage.com is also working with other like-minded organizations to promote Kenya as the premier outsourcing destination in Africa for local, regional, and global clients.
